**How can we support those volunteers becoming increasingly S-T-R-E-T-C-H-E-D ?**

**= Ailing GROUPS ?**

✴ Ownership of ideas and follow them through.
   Don't just instigate – stay the course.

✴ Accept that priorities and commitments change.  -  "Let Go"

✴ Volunteers are not "free".

✴ Use any resources to become sustainable.

✴ Importance of group energy levels and communication *vs*
   funding is tail that wags the dog.

✴ Collaborations help build energy

✴ (Making changes in own lifestyles leading to less available
   time.)

✴ Having clarity about intentions.
   Less waste of energy

✴ Maintenance of self and group
   Practical help and support to free up time.

✴ Supporting roles  -  identify them and invite more volunteers to
   come in.  Help potential volunteers recognise roles for
   themselves.

✴ Make activities more fun, eg awareness raising  -  get training.

✴ Allowing different approaches  -  value diversity.

✴ "LINKING CLIMATE CHANGE TO LOCAL ISSUES"
   a good way to further engage local community
